

Pak's Gadoon Mills joins ITMF

FW

Gadoon Textile Mills has joined the International Textile Manufacturers Federation (ITMF).

Established in 1988, Gadoon, a part of the Yunus Brothers Group, is one of the largest spinning and textile companies in Pakistan and is a pioneer of quality and innovation in the textile manufacturing sector of Pakistan. The company manufactures and processes all types of cotton and manmade fibers at its state-of-the-art manufacturing plants. ITMF founded in 1904 is the international forum of the global textile value chain from fiber to finished products. Its members are from textile and apparel-producing countries representing 90 per cent of global production.

By becoming a corporate member of ITMF, Gadoon Textile Mills will join associations and companies from around the world that are active in the entire textile value chain like fiber, textile, garment, home textile, textile machinery or chemical producers as well as other organisations and companies affiliated with the textile industry. This exclusive exposure will provide Gadoon Textile Mills with additional and unique access to international partners from around the world. On the other hand, ITMF and ITMF's members will benefit from Gadoon's extraordinary expertise and experience. ITMF brings like-minded people together for a better understanding
