The Bitcoin & Blockchain webinar of the Bremen Cotton Exchange took place on September 24 with big response. The speaker Leonard Pust introduced the participants to the world of bitcoins and blockchain using descriptive examples. Next to the basic technologies and the operating modes of the systems, the application in the textile chain was given attention in detail. Simone Dreyer who is in charge of the project ‘Blockchain in GMO Mediation of Organic Cotton’ at the Bremen Cotton Exchange represented various application examples. These came from companies of the textile and clothing industry that have been testing blockchain technology in their supply chains.
