Billion

1. Foreign Trade

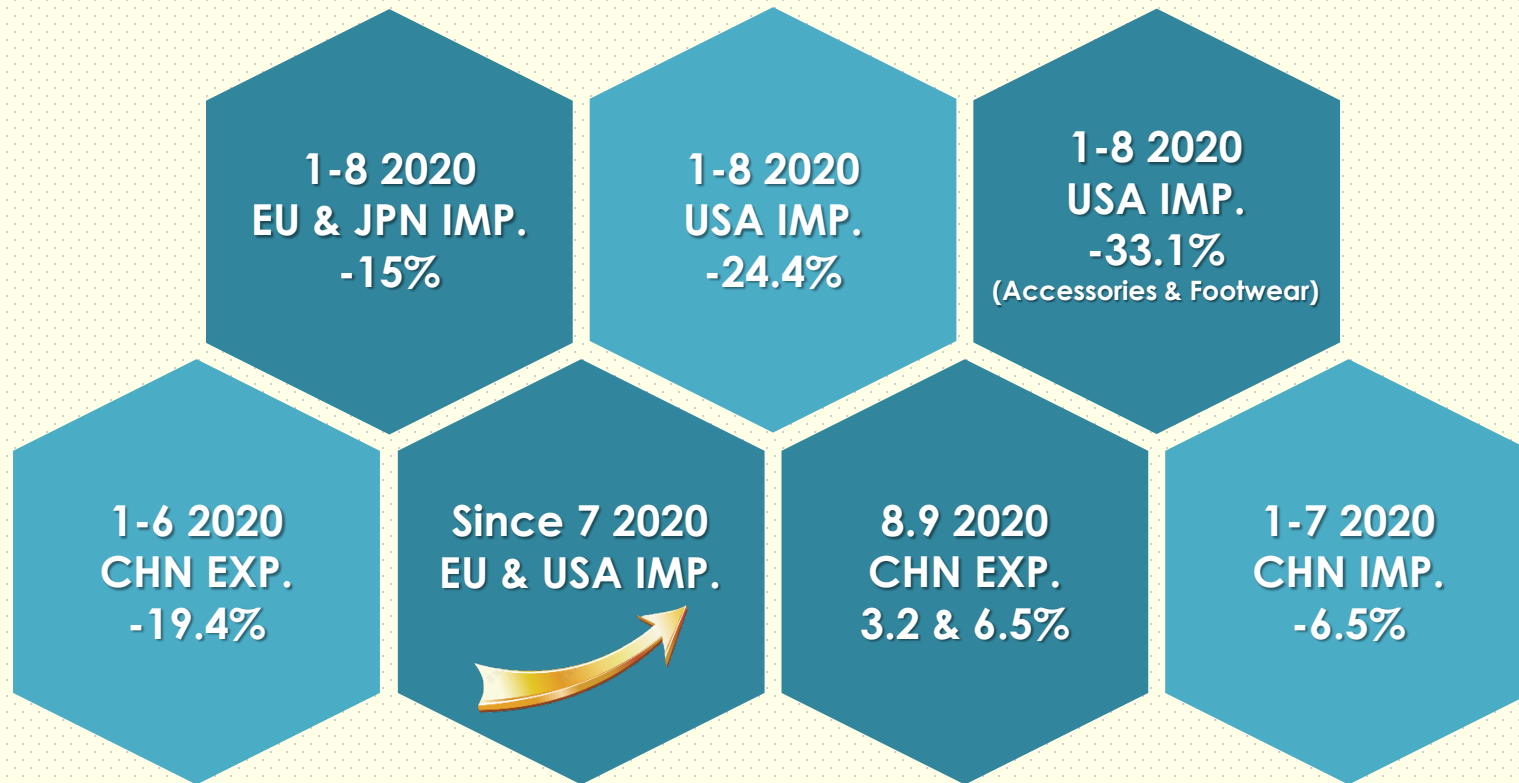

Positive growth of exports reflecting the industry resilience

Rapid growth of masks export contributing to the global fight against the pandemic

Garments export facing pressures but showing some improvements

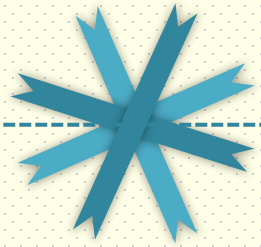

Affected by the pandemic, the world terminal market demand is declining. Consequently, global imports and exports of apparel products are shrinking.

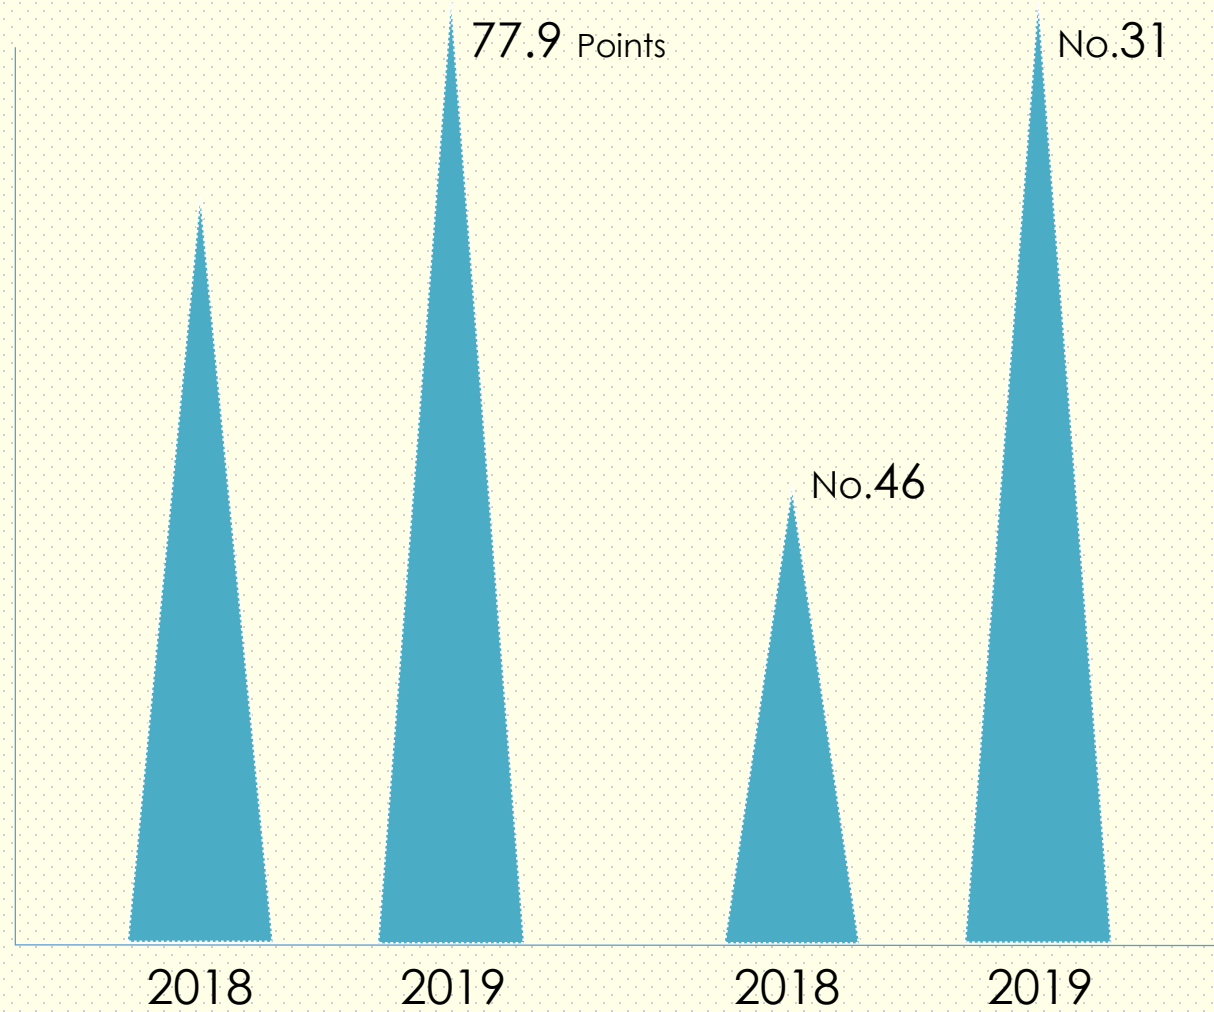

2. Improved Environment to Attract Foreign Investment

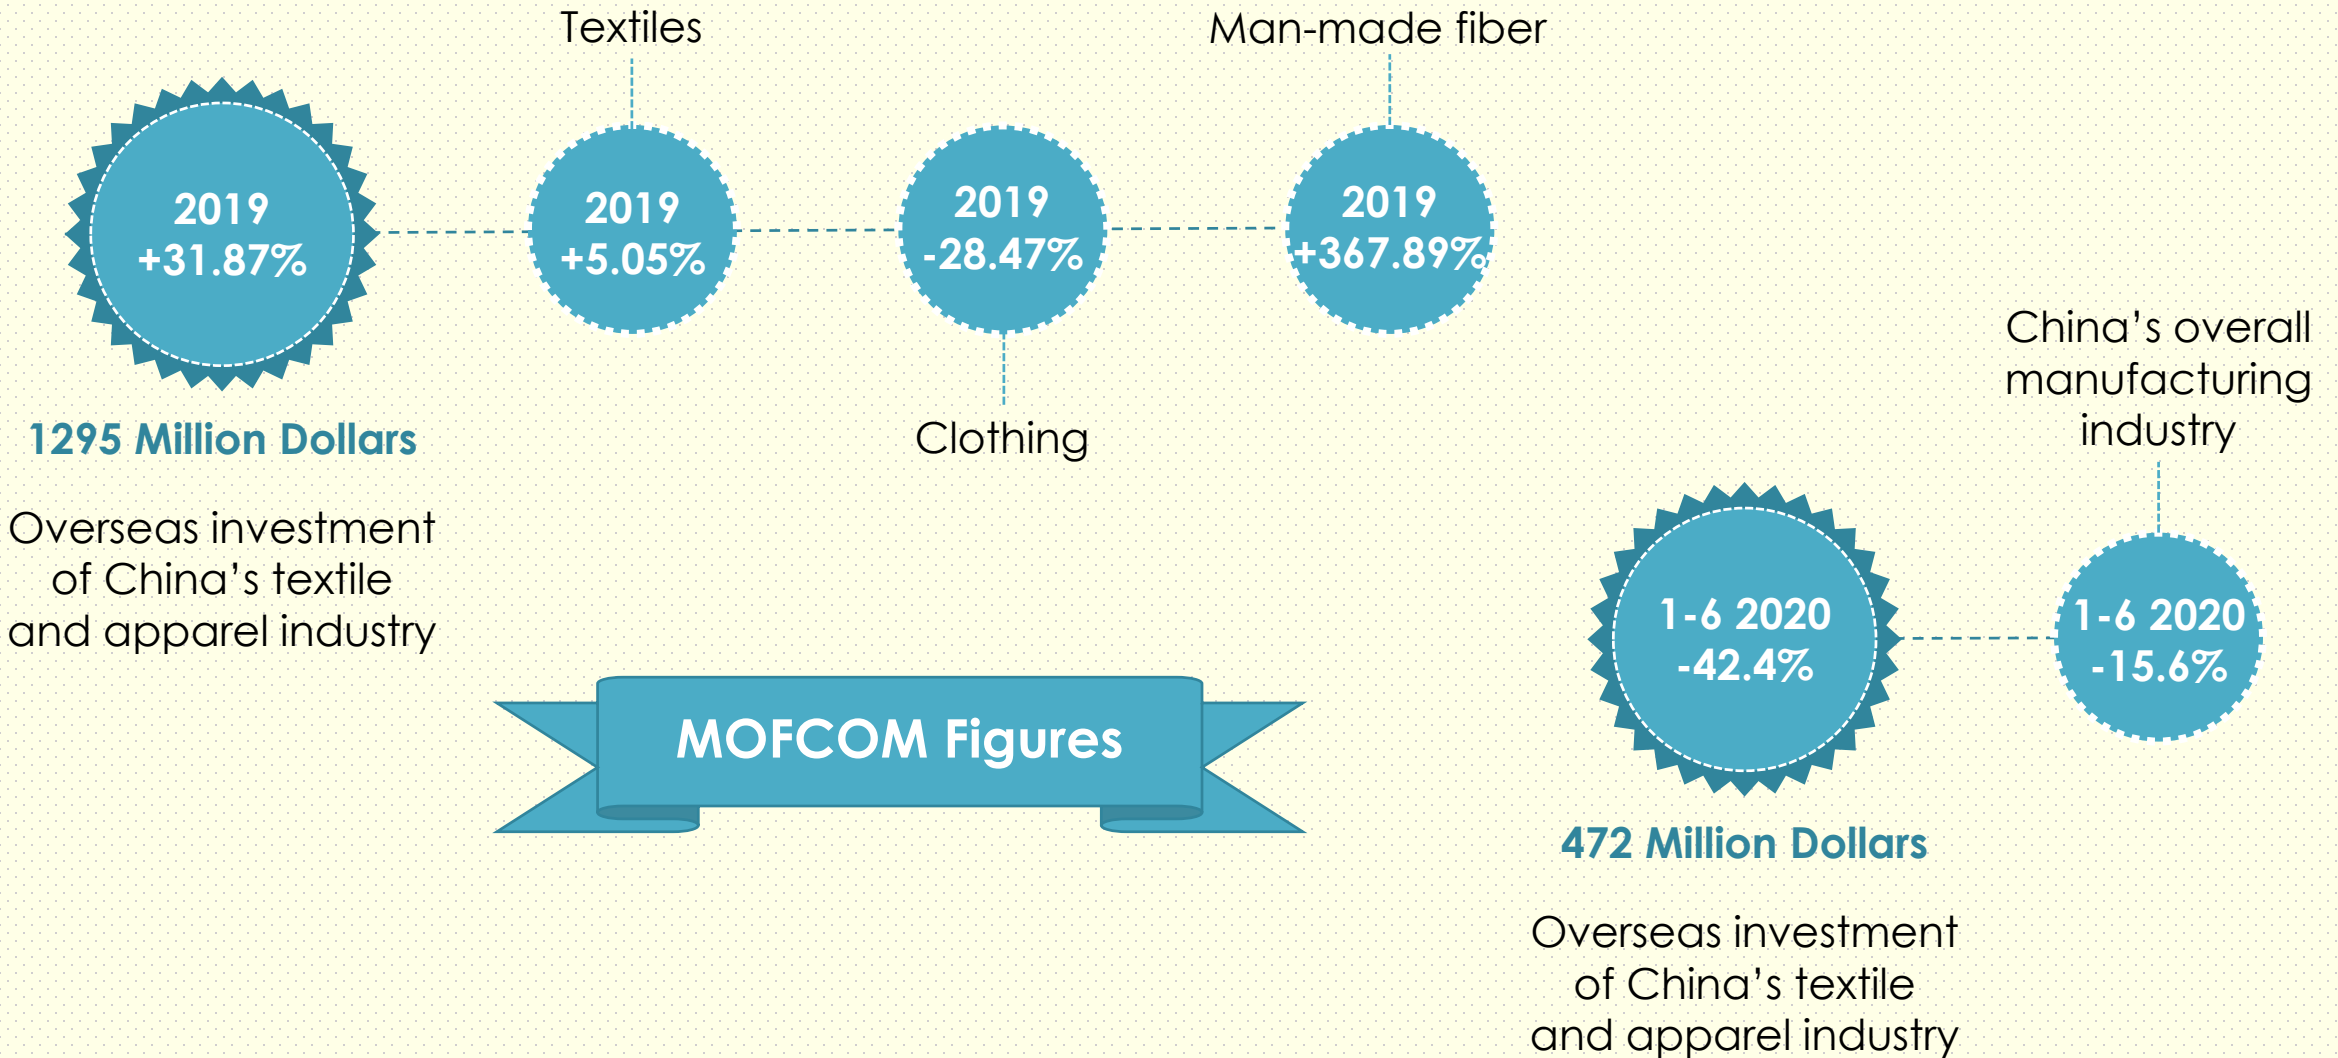

The World Bank

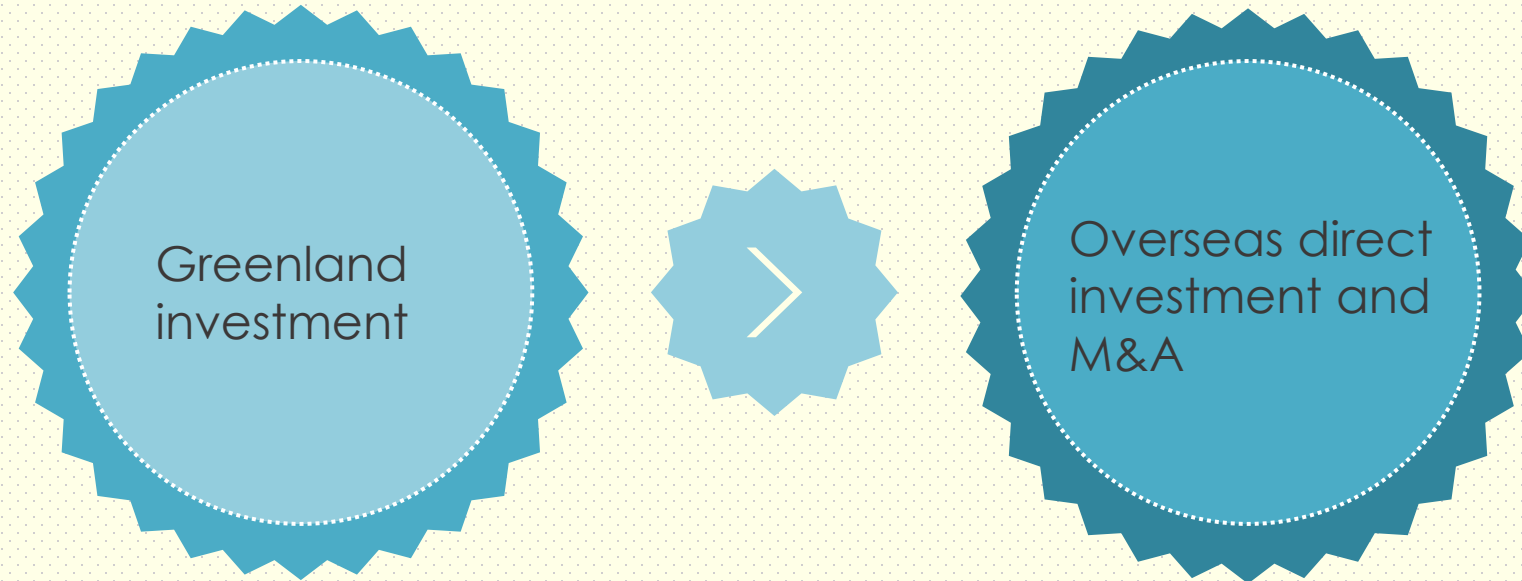

Doing Business 2020

3. Steady Development in Overseas Investment

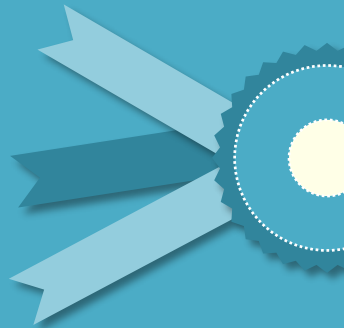

3. Steady Development in Overseas Investment

Opening-up Measures of China's Textile and Apparel Industry

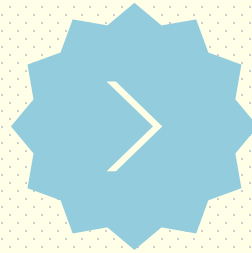

Part Two

1. To Promote High Quality Trade Development

To promote balanced development of imports and exports, of two-way trade and investment, and of trade and industry

To accelerate the establishment of a "dual circulation" development pattern

2. To Deepen Bilateral and Multilateral Cooperation for Jointly Building the “Belt and Road”

To push forward
the signing of FTAs

To facilitate textile
supply chain
cooperation in areas
such as the Lancang-
Mekong sub-region,
Africa and Central
Asia

3. To Improve Platforms for Further Opening-up

intertextile
