

ITMF Annual Conference 2022
Davos, Switzerland
September 18-20

Post-Conference Excursion

Wednesday, Sep. 21 (10.00-19.30 hrs.)

Limmern Water Dam **(Hydroelectric power station)**

The Limmern pumped storage plant is one of Axpo's most important expansion projects. The underground pumped storage plant pumps water from the Limmernsee back into the Muttsee (630 m) in order to re-use it for electricity production. At 1'054 meters, the Muttsee dam is the longest in Switzerland and is around 2,500 meters above sea level. It is also the highest dam in Europe.

09.45 hrs.	Meeting point: Hotel Hilton Inn Garden)
10.00 – 12.00hrs.	Bus Drive from Davos to Tierfehd
12.30 hrs.	Lunch in Tierfehd (Hotel Tödi)
14.00 – 16.30 hrs.	Guided Tour Limmern water dam (hydroelectric power station)
16.30 – 19.30 hrs.	Bus Drive from Tierfehd to Davos

Costs: CHF 190 p. Person.

Equipment: Closed and sure-footed shoes are required. Clothing adapted to the weather is recommended. The temperatures on the tour range between 10 and 18 degrees. Safety vest, audio system and a flashlight are provided.

Fitness and Safety: The guided tours take place mostly on foot and inside the mountain at around 1700 m above sea level. A good health condition (many stairs) is therefore required. Persons with pacemakers or implanted defibrillators are not allowed access to the power plants for safety reasons. The ascent and descent with the funicular in the tunnel take place in a closed cable car cabin.
