

## Nep Review

René van der Sluijs

March 2014

CSIRO MATERIALS SCIENCE AND ENGINEERING  
[www.csiro.au](http://www.csiro.au)

## BACKGROUND

- Although neps have been identified as a major quality issue in cotton production and processing as far back as the late 1700s, no comprehensive review has been conducted on the formation, composition, measurement, consequences and ways to reduce the effects of neps.
- A major aim of this work is to compile a comprehensive review of the literature with the objective of publishing the review as a definitive review of cotton neps.

## NEP REVIEW

# COTTON NEPS

A review on the formation, composition, measurement, consequences and ways to reduce the effects of neps.

ICCTM Nep - M.H.J. van der Sluijs

## Contents

[WHAT IS A NEP?](#)

[DISTINCTION BETWEEN NEP TYPES](#)

[HOW DO NEPS APPEAR IN FIBRE, YARN AND FABRIC?](#)

[STANDARDS](#)

[NEP MEASUREMENT](#)

[THE EFFECT OF FIBRE PROPERTIES ON NEPS](#)

[THE INFLUENCE OF VARIETY AND ENVIRONMENTAL FACTORS ON NEPS](#)

[HARVESTING](#)

[GINNING](#)

[YARN MANUFACTURE](#)

[MEASURES TO REDUCE THE EFFECT OF NEPS ON DYED AND FINISHED FABRICS](#)

ICCTM Nep - M.H.J. van der Sluijs
